475 FAME AVE., P.O. BOX 66, HANOVER, PA 17331, U.S.A.

ELSNER MODEL ELA-48 END LABEL APPLICATOR

The Elsner Model ELA-48 End Label Applicator is designed to apply adhesive labels up to 3-1/2" in diameter to the end of rolled products. Die-cut labels on release liner (with waste removed) supplied on 3 inch inside diameter cores and up to 12 inch maximum outside diameter are required. Operating as an 'on-demand' system the machine first centers the roll about the machine; the roll is then indexed to the label application position. Manual over-ride controls are provided for machine set-up and product clearing.

- Up to 30 cycles per minute
- Close couple to Elsner Models EW-4 or OW-C Overwrappers
- Roll width range of 24 to 48 inches (610 to 1219 mm)
- Roll diameter range of 1.75 to 4.75 inches (44.4 to 121 mm)
- Label applicator manually adjustable via handcrank to align label with product roll
- Working height of 28" (711 mm)
- PLC controlled
- Simple pushbutton operator controls
