

ELSNER ENGINEERING WORKS, INC.

475 FAME AVE., P.O. BOX 66, HANOVER, PA 17331, U.S.A.

ELSNER MODEL ZFV-SERIES AUTOMATIC WET WIPE FOLDING MACHINES

Features:

- Automatic cut-off and stacking section
- Variable cut length
- Range of cut widths
- Score-cut slitters for range of slit widths
- Wetting station with synchronized displacement solution pump and solution storage reservoir
- EPT-1 automatic tension control on unwind for 60" (1524 mm) diameter
- Interchangeable "quick change" modular length fold plows for "Z" fold
- Stack discharge conveyor
- PLC-controlled
- Master roll air shaft 3" (76 mm) standard
- Centrally-located manual lubrication system
- Full safety guarding

Available Options:

- Extend folded cut width range
- Servo motor drive for cut-off and stacking, including infinitely variable cut-off length and stack height
- Shear cut slitters
- Auxiliary wetting station for greater saturation of product
- Sanitary fittings for wetting solution
- Interchangeable length fold plows for "C", "W", and "N" folds
- Surface belt-driven unwind with dancer control
- Overhead monorail mill roll loading hoist
- Mill roll exhaust automatic stop switch
- Second unwind to load new mill roll while first roll is being consumed
- Automatic tub loading and interface to flow-pack wrapper
