### **ELSNER ENGINEERING WORKS, INC. CAR WASH SUPPORTS UNITED WAY**

*For Immediate Release* – The management of Elsner Engineering Works, Inc. spent several hours out of their busy workday on Friday to support the United Way of York County. Bert Elsner, II, Vice-president explains: “We had informed our employees last year at the beginning of our United Way fundraising campaign that if we reached our employee giving level goal for the 2011 campaign, management of the firm would wash and vacuum all contributor’s vehicles. Today, our management team washed over 30 vehicles of the 40 employees who contributed to the campaign. Combined these individuals contributed over \$ 9,500.00 to the United Way for the 2011 campaign.”

Mr. Elsner goes onto explain: “Our employees have always been generous contributors to the United Way campaign and each year we try to have some fun with it. In fact, we told our employees that any loose change we found under the car seats when vacuuming, we would contribute to the United Way. Although this only amounted to \$ 1.83, our employees also contributed over \$ 100.00 today to the United Way—just to show their continued support.”

Elsner Engineering Works, Inc. also treated all employees to a catered lunch today for their continued efforts in supporting the Corporation’s volunteer based philosophy.

**-- MORE --**

Elsner Engineering Works, Inc., designs and manufactures special machinery for the converting and packaging industries. They celebrated their 75<sup>th</sup> anniversary as a 3<sup>rd</sup> generation family owned and operated business in 2009. Elsner's line of over 40 different rewinding, folding and overwrapping machines is used to convert and package such products as disposable disinfectant and baby non-woven wipes, gift wrap paper, aluminum foil and wallpaper. Elsner currently services and supports over 2400 machines worldwide with equipment in service in nearly 60 countries. Besides its headquarters in Hanover, Pennsylvania, Elsner has a sales office in Bremen, Germany, and offers field support from Shanghai, China, as well.
